As part of our commitment to safeguarding, it is important that we ensure that parents/carers are as informed as possible about online safety and well-being.

What parents and carers need to know about online bullying

As we took part in national Anti-bullying Week this week this guide helps us understand the possibility of online bullying. Defined as “ongoing hurtful behaviour towards someone online”, cyber-bullying makes its victims feel upset, uncomfortable and unsafe. In the digital world, it has numerous forms – such as hurtful comments on a person’s posts or profile; deliberately leaving them out of group chats; sharing embarrassing images or videos of someone; or spreading gossip about them. Cyber-bullying can severely impact a young person’s mental health ... so, in support of Anti-Bullying Week, we’ve provided a list of tips to help trusted adults know what to look for and how to respond to it.

In the guide, you'll find tips such as playing online games with your child, talking about your child's online life and being prepared to listen without showing any judgement or criticism.

The guide on this subject can be downloaded from our school Facebook page. <https://www.facebook.com/TheAvenueInfantSchool/> and from the school website.
