Advice for Parents & Carers

National Online Safety
 #WakeUpWednesday

As part of our commitment to safeguarding, it is important that we ensure that parents/carers are as informed as possible about online safety and well-being.

What parents need to know about Smart TV's

With most homes now having a smart TV, these more advanced systems offer numerous features beyond those of a normal television set – chiefly, the ability to access the internet and interface with popular streaming services or video sharing platforms such as YouTube, without the need for a set-top box or other intermediary device.

This increased functionality, however, also brings additional threats to privacy, security and more – as you'd perhaps expect from any device capable of going online. As TV is such a cornerstone of our home lives, these dangers can be uniquely difficult to manage. Our #WakeUpWednesday guide breaks down the major risks, with tips on helping children to enjoy TV ... stress free.

The guide on this subject can be downloaded from our school Facebook page. <https://www.facebook.com/TheAvenueInfantSchool/> and from the school website.
