Summer Term Week 6

It's been another hot, sticky week but the children have been incredible once again. From the wonderful Celebrations of Learning from Reception and Year 1 to the exemplary behaviour of the Year 2s on their trip to Hunstanton, we are super proud of them all. The volunteers at the Lifeboat station in Old Hunstanton praised our Year 2's behaviour, listening and questions. They were also very grateful for the donations collected for them in the RNLI jars- thank you all. Thank you to all of you who came along to the Celebrations of Learning. It was lovely to have such a big audience, and the children were so pleased to see you. Next week are looking forward to the last Rock Steady performance of the year and the very special Year 2s Leavers Performance. The last week is always tiring and emotional for the children, and staff, but we always aim to make it as memorable and happy as possible. Have a lovely weekend.

What parents and carers need to know about Minecraft

With its limitless opportunities for building, exploring and collaborating, Minecraft remains a global gaming phenomenon. Its broad appeal lies in how open-ended it is – but this also means it's not without risk. From chatting with strangers on public servers to the grief of having a beloved creation destroyed, young players can face challenges if left unsupervised. Minecraft can also become a time sink for enthusiastic players, with late nights spent crafting and constructing, potentially impacting school and social lives.

We've created this guide to help parents and educators understand how to keep young gamers safe – from choosing age-appropriate game modes to setting boundaries around screen time and spending.
