

ISN'T IT FUNNY HOW A BEAR LIKES HONEY?

A game to play with the whole class.

How to play:

Choose a child to be the bear. Children make a circle and the bear sits in the middle closing their eyes. Children walk around in a circle saying the rhyme. When the rhyme ends, the child who is standing directly behind the bear must walk very quickly towards them without making a sound. If the bear hears the child then they must say 'Buzz' and the game starts again. If the child successfully reaches the bear without being heard, then they swap places and the game starts again.

Rhyme

'Isn't it funny how a bear likes honey?
Buzz, buzz, buzz, I wonder why he does.'
